

## Example of demonstration table with supporting commentary

The UK population, which was 66.4 million in mid 2018, is projected to rise to 69.4 million over the decade to mid 2028. It is then projected to pass 70 million by mid 2031 and reach 72.4 million by 25 years into the projection (mid 2043).

**Table 1: Estimated and projected population of the UK and constituent countries, mid 2018 to mid 2043 (millions)**

<b>Country</b>	<b>2018</b>	<b>2023</b>	<b>2028</b>	<b>2033</b>	<b>2038</b>	<b>2043</b>
UK	66.4	68.1	69.4	70.5	71.4	72.4
England	56.0	57.6	58.8	59.8	60.8	61.7
Wales	3.1	3.2	3.2	3.1	3.1	3.1
Scotland	5.4	5.5	5.5	5.6	5.6	5.6
Northern Ireland	1.9	1.9	2.0	2.0	2.0	2.0
